

Demonstration of Proposed Features

Date	01 October 2026
Team ID	SWTID-2026-8779
Project Name	PocketSmart AI – Your Smart Budget & Recommendation System
Maximum Marks	1 Mark

Demonstration of Proposed Features:

PocketSmartAI demonstrates its Home, Party, and Jewelry Budget Planners by generating personalized AI-based recommendations according to the user's budget, preferences, and requirements. It also allows users to view and reuse their previous recommendations.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Home Planner	Generates personalized plans based on user requirements and preferences.	Implemented	Yes	Successfully demonstrated
2	Recommendation System	Provides AI-based recommendations based on the user's selected requirements.	Implemented	Yes	Recommendation output verified
3	Jewelry Planner & Recommendation	Helps users plan and receive suitable jewelry recommendations.	Implemented	Yes	Feature demonstrated
4	Party Planner & Recommendation	Generates suitable party planning suggestions based on user inputs.	Implemented	Yes	Feature demonstrated
5	User Authentication	Provides login and registration functionality for users.	Implemented	Yes	Login and registration tested
6	AI-Powered Generation	Uses Gemini API to generate personalized planning recommendations.	Implemented	Yes	AI generation and fallback mechanism tested

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
